# Food Chemicals Codex Online Product

**Validation Protocol - Test Information**

**1. Testing Instructions**

- You can start and stop testing at your convenience. Please complete all test scenarios.
- Items displayed with quotations indicate a link, button, characters that you need to type or features of the application.
- Do not type the quotes when asked to enter text.
- Do not type periods or commas inside of quotation marks when asked to enter text.
- Depending on the search criteria you enter, you may or may not return search results.
- If you receive an error message, please print it or write down the exact message on the screen.
- Be sure to assign consecutive numbers to your notes.
- Fill in all the fields in the configuration table (Tester, Status, Date, OS ...etc.)
- Be sure to print your name and sign your name.
- For every test step, indicate whether it passed, failed, or N/A with an "x" or a checkmark.
- If a test case or test step fails, make sure you enter the actual result in the comments field.

## 2. Supported Operating Systems & Browsers

| Operating Systems |
|---|
| Windows 7 |

|---|---|---|---|---|---|---|---|
| **Login Pre-conditions: - Food Chemicals Codex (FCC) Online Login page.<br>- Must have Adobe Reader installed to view PDF files.** | | | | | | | |
| **LI-1** | | Open the Validation Protocol in multiple formats | The Validation Protocol displays in PDF and Microsoft Excel format | | | | |
| | 1 | Go to http://online.foodchemicalscodex.org/ | FCC Online landing page is displayed | | | | |
| | 2 | Click the **Validation Protocol** link. | A page displays the validation protocol links. | | | | |
| | 3 | Click the **View PDF link** and then click **Open**, if it does not open in the browser window. | The PDF version of the validation protocol will display. | | | | |
| | 4 | Verify the version of the Validation Protocol is the current version for the current issue of FCC Online. | | | | | |
| | 5 | Click **Back** if the PDF opens in the browser window or click ☒ in the upper-right corner of the Adobe Acrobat Reader application to close the PDF. | The previous page displays or the PDF closes. | | | | |
| | 6 | Click the **Download Spreadsheet** link and then click **Open**. | An Excel version of the validation protocol will display. | | | | |
| | 7 | Click the ☒ button in the upper-right corner to close the Excel spreadsheet. | The Excel spreadsheet closes. | | | | |
| **LI-2** | | Open FCC Product page | FCC Product hyperlink successful | | | | |
| | 1 | Go to http://online.foodchemicalscodex.org. | FCC Online landing page is displayed. | | | | |
| | 2 | Click the **FCC Product Page** hyperlink. | The FCC home page displays. | | | | |
| | 3 | Click **Back** if a browser window opens or click ☒ in the upper-right corner of the active window to close the window. | The previous page displays or the New window closes. | | | | |
| **LI-3** | | Verify login | Login successful | | | | |

Signature/Date:_____

| CASE ID | STEP | Action | Expected Result | Pass | Fail | N/A | Comments (Actual result if different from expected result) |
|---|---|---|---|---|---|---|---|
| | 1 | Go to http://online.foodchemicalscodex.org. | FCC Online landing page displays. | | | | |
| | 2 | Click **LOGIN TO NEW FCC PORTAL** link or Click **LOGIN** button. | The Welcome To The Access Point screen displays. | | | | |
| | 2 | Enter Email and Password. Click **Submit** button. | The Welcome page displays for FCC. | | | | |
| **Search Pre-conditions:** | | **- Login to FCC**<br>**- Locate Search** | | | | | |
| **QS-1** | | Keyword search using Search | Search displays search results | | | | |
| | 1 | Type a valid keyword in the **Search** text box, for example keyword "salt". | | | | | |
| | 2 | Click **Magnifying glass.** **Or** click **Enter** key. | All entries that match the keyword display. | | | | |
| **QS-2** | | Display results links | Search results links display | | | | |
| | 1 | Click on any search results link. | The link content is displayed. The search keyword is highlighted. | | | | |
| **QS-3** | | Search for Empirical formulas | Empirical formula is displayed | | | | |
| | 1 | Type a valid empirical formula in the **Search** text box, for example "C6H14O6".<br>**Note**: use double quotes for best results | The example given uses the letter "O" not the number zero. (If the empirical formula is made up of multiple chemical structures type them in with a space between each one. For example, type Ammonium Alginate as, "C6H7O6NH4.") | | | | |
| | 2 | Click **Magnifying glass.** | All entries that contain the empirical formula display. | | | | |
| | 3 | Select any of the search results. | The link content is displayed.<br><br>Note: The empirical formula is not highlighted. | | | | |
| **QS-4** | | Search for CAS number | Chemical abstract is displayed | | | | |
| | 1 | Type a valid CAS number in the **Search** text box, for example "58-08-2".<br><br>**Note:** Use double quotes for best results. | | | | | |
| | 2 | Click **Magnifying glass**. | All entries that match the chemical abstract display. | | | | |
| | 3 | Select any of the search results. | The link content is displayed. The chemical abstract is highlighted. | | | | |
| **QS-5** | | Search using the Boolean (AND) search condition | Data entries containing both keywords are displayed. | | | | |

Signature/Date:_____

| CASE ID | STEP | Action | Expected Result | Pass | Fail | N/A | Comments (Actual result if different from expected result) |
|---|---|---|---|---|---|---|---|
| | 1 | In the **Search** text box, search using the Boolean AND, for example "salt and calcium". | NOTE: Use AND only once. | | | | |
| | 2 | Press the **Enter** key. | All entries that match the keywords display. | | | | |
| | 3 | Select any of the search results. | The search result is displayed. The keywords are highlighted. | | | | |
| **QS-6** | | Search using the Boolean (OR) search condition | Data entries containing the keyword display. | | | | |
| | 1 | In the Search text box, **search** using the Boolean OR, for example "extract or capsule." | NOTE: Use OR only once. | | | | |
| | 2 | Click **Magnifying glass**. | All data entries that match either keyword display. | | | | |
| | 3 | Select any of the search results. | The search result is displayed. The keywords are highlighted. | | | | |
| **QS-7** | | Search using the Phonetic (~) search condition | Use the Tilda (~) to search when unsure of the spelling of a word. Retrieved are documents that sound similar to the keyword searched. | | | | |
| | 1 | Type ~ at the beginning of a keyword in the **Search** text box, for example "~methonene". | | | | | |
| | 2 | Click **Magnifying glass**. | All data entries that include words that sound similar to the keyword display. For example entries that contain words that sound similar to "methonene" are displayed. | | | | |
| **QS-8** | | Search using the Wildcard (*) search condition | Wildcard search conditions increase the scope of a search. The "*" - represents any number of consecutive alphanumeric characters, including, one character, several characters, or no character at the given position in the word. | | | | |
| | 1 | Type a valid partial keyword in the **Search** text box, for example "camp*." | | | | | |
| | 2 | Click **Magnifying glass**. | All entries that contain words similar to the keyword display. For example, entries that contain the letters camp*, like "Camphene" display. | | | | |
| **QS-9** | | Search using the Wildcard (?) search condition | The "?" Wildcard symbol - represents a single character at a given position in the word. | | | | |
| | 1 | Type a valid partial keyword in the Search text box, for example "cas?or". | | | | | |

Signature/Date:_____

| CASE ID | STEP | Action | Expected Result | Pass | Fail | N/A | Comments (Actual result if different from expected result) |
|---|---|---|---|---|---|---|---|
| | 2 | Click **Magnifying glass** | All entries that contain words similar to the keyword display. For example, entries that contain the word "cas?or," display. | | | | |
| **QS-10** | | Search using the Wildcard (? and *) search conditions | Wildcard symbols can be used together. | | | | |
| | 1 | Type a valid partial keyword in the Search text box, for example "sa?e*." | | | | | |
| | 2 | Click **Magnifying glass** | All entries that contain words similar to the keyword display. For example, entries that contain the word sa?e*, like "Sage" will be displayed. | | | | |
| | 3 | Select a search result. | Search result displays, keyword is highlighted. | | | | |
| **QS-11** | | Search using the Boolean & Wildcard conditions | Data entries containing both keywords display. | | | | |
| | 1 | Type a valid keyword in the Search text box using the Boolean and Wildcard search conditions, for example "garlic and oi*". | | | | | |
| | 2 | Press the **Enter** key. | All entries that contain both keywords or words similar to the keywords display. For example entries that contain both "garlic and oi*" display. | | | | |
| **QS-12** | | Search using Proximity search condition | The Proximity search, using format “word1 word2”~n where n is number of words between word1 and word2. | | | | |
| | 1 | In the Search text box, search for terms using proximity between two words, for example "gellan gum"~4. | | | | | |
| | 2 | Click Magnifying glass | All entries that are related or contain the keywords display. For example entries that contain both gellan and gum" up to 4 words apart will be displayed. | | | | |
| **QS-13** | | Test Go button without entering any keyword(s). | No search results are displayed | | | | |
| | 1 | Click "Magnifying glass" without entering any keyword. Be sure that the Search text box is blank. | No action will happen. | | | | |
| **QS-14** | | User test search for non-existing keywords | No search results are displayed | | | | |
| | 1 | Type an invalid keyword in the Search text box, for example "palette." | Search results are displayed. | | | | |

Signature/Date:_____

| CASE ID | STEP | Action | Expected Result | Pass | Fail | N/A | Comments (Actual result if different from expected result) |
|---|---|---|---|---|---|---|---|
| | 2 | Click **Magnifying glass.** | Pop-up widnow displays stating:<br>**Search Results**<br>"There are no results that match your search for <search term>, for example: "palette". | | | | |
| **Facet Search Pre-conditions:** | | **- Login to FCC , see LI-3 for more information**<br>**- NOTE: Depending on the search criteria you enter search results may not be found.** | | | | | |
| **FS-1** | | Filter Search Results for Monographs using Monograph facet. | Monograph Search results display. | | | | |
| | 1 | Type a valid keyword in the **Search** field, for example "Calcium". | | | | | |
| | 2 | Click **Magnifying glass.** | Entries that match the search keyword display. | | | | |
| | 3 | Following Facet selections are available on left side of the screen to filter search results:<br><br>i. Effective Status<br>ii. Publications<br>iii. Document Type<br>iv. First Publication<br>v. Last Revised<br>vi. Publication Date | Facet Search options are available. | | | | |
| | 4 | In Facet Search options, Select **Monographs** checkbox within **Document Type** folder. | All **Monographs** with Search term "Calcium" display. | | | | |
| **FS-2** | | Search by Publications using Publications facet. | Search results display. | | | | |
| | 1 | Type a valid keyword in the **Search** field, for example Ammonia. | | | | | |
| | 2 | Press the **Enter** key. | All entries that match the keyword display. | | | | |
| | 3 | In Facet Search options, Select Publication checkbox within Publications folder. For example: Select "FCC 10 1S". | The **Publication** for FCC 10 1S documents are displayed for Ammonia. | | | | |
| **FS-3** | | Multiple Facet Search selections. | Search results display. | | | | |
| | 1 | Type a valid keyword in the **Search** field, for example Calcium. | | | | | |
| | 2 | Press the **Enter** key. | All entries that match the keyword display. | | | | |
