
[FCC Revisions, Commentary & Errata](#)

Revisions

Revisions to FCC standards are published in the FCC, which includes a main edition and three Supplements. Revisions supersede any previously published content.

[View Rules and Procedures of the Council of Experts](#)

Commentary

Public comments to revision proposals in the FCC Forum are reviewed by the Food Ingredients Expert Committee. Following the Rules and Procedures of the 2015–2020 Council of Experts, revision proposals can advance to publication with minor modifications, as needed, without requiring further public review.

Errata

Errata are considered to be text erroneously published in the FCC or its Supplements that does not accurately reflect the intended requirements as approved by the Council of Experts. Errata are posted here to ensure that FCC users receive Errata information in a timely manner. The Errata are posted on the last Friday of June and December to align with the posting of the FCC Forums, and are effective on the first day of the following month.

Errata are incorporated into the next available effective publication as follows:

- Errata are corrected in each online publication (FCC bi-annual edition, first, second, and third Supplements) and include revision symbols to designate changes—**new text. (ERR 1–Jul–2012)**
- Errata are corrected in the bi-annual print publication. Errata are corrected in print Supplements only when a title has been revised. Revision symbols are also included when Errata appear in print.

Errata are posted in a new interactive table below. Users can search for an item by title, or sort the table by column heading. In addition, data can be downloaded in Excel or CSV format and printed.

- **Errata Effective Date** refers to the date the Erratum becomes effective.
- **Source Publication** is the latest effective publication where the Erratum appears, or upcoming effective publication if the Erratum was introduced after the latest effective publication.
- **Page Number** indicates where the item is found within the source print publication.
- **Target Errata Print Publication** specifies when the Erratum will be corrected in print and will always reflect the next available Book, as Errata corrections only appear in print Supplements

when a title has been revised.

- **Target Online Fix Publication** specifies when the Erratum will be corrected online and may be a Book or Supplement.
