
Removal of UNII Codes from FCC Monographs

Type of Posting: General Announcement

Posting Date: 02–Mar–2020

This is a general announcement to let users know that USP will no longer display UNII Codes in the *FCC* publication (print and online). The suppression of UNII codes will be effective March 2, 2020, which coincides with the publication of *FCC* 12. UNII codes will remain searchable in the *FCC* online product and will display the related monographs in the search results; however, this is a system artifact and UNII codes are not considered to be associated with any *FCC* monographs.

Should you have any questions or comments, please contact Kristie Laurvick, Senior Manager, Food Standards (301-816-8356 or kxb@usp.org).
