
[FCC 12 and FCC 12 First Supplement: Revision and Effective Status](#)

Type of Posting: Publication Announcement

Posting Date: 13–Nov–2020

USP would like to make FCC users aware of the following identified issues in the *FCC 12* and *FCC 12 First Supplement* online publications.

- Updated hyperlinks to combined Appendix files in *FCC 12 First Supplement* (see related Compendial Notice [here](#))
 - Resulted in a majority of files appearing as revised in *FCC 12 1S* with an effective date of Dec. 1, 2020, when in fact the files were not revised for content and remain effective with the “previous version” effective date.
- Effective date for *FCC 12* was extended to December 1, 2020 in response to COVID (see related Compendial Notice [here](#))
 - Resulted in *FCC 12* version of files that were new or changed to show an effective date of “Dec 01, 2020 (FCC 12) to Nov 30, 2020 (FCC 12)”, once the *FCC 12 1S* version appeared as revised due to the above issue of fixing the Appendix hyperlinks.
- Below is a table of new and changed files from both *FCC 12* and *FCC 12 1S* that clarifies which files were actually new or revised in the publication and the associated effective date. Other resources to help identify which files contain actual content revisions are the “New and Changed” list, as well as the “Last Revised” information at the top of each file, under the title.

FCC 12

Title

5'-Adenylic Acid
Calcium Lignosulfonate (40-65)
Cellulose Gel
Alpha-Damascone
Beta-Damascone
Delta-Damascone
Erythritol
Ethyl Cellulose
Gum Ghatti
Petrolatum
Potassium Hydroxide

Potassium Hydroxide Solution
Sodium Ferrocyanide
Zein
Appendix V: Enzyme Assays

Effective Date

December 1, 2020
December 1, 2020

FCC 12 1S

Title

Allulose
Camellia Seed Oil
Jagua (Genipin-Glycine)
Rice Bran Oil
Allyl Butyrate
Alpha-Amylcinnamyl Acetate
Anise Oil
Butyl Isothiocyanate
Cellulose Gum
Citric Acid
Citric And Fatty Acid Esters
Glycerol
Gibberellic Acid
Glyceryl Behenate
Ponceau 4R
Potassium Gibberellate
