

Commentary
Food Chemicals Codex (FCC), 1st Supplement to the Fourteenth Edition

September 4, 2024

In accordance with the *Rules and Procedures of the 2020-2025 Council of Experts (CoE Rules)*, and except as provided in Section 9.02 *Accelerated Revision Processes*, USP publishes proposed revisions to the *Food Chemicals Codex (FCC)* for public review and comment in the *FCC Forum (FCCF)*, USP's venue for providing public notice and receiving public comment on an *FCC* proposed standard. After comments are considered and incorporated as the Food Ingredients Expert Committee (FIEC) deems appropriate, the proposal may advance to effective status or be republished in *FCCF* for further notice and comment, in accordance with the *CoE Rules*. In cases when proposals advance to effective status without republication in the *FCCF*, a summary of comments received and the FIEC's responses are published in the *Commentary* section of the [FCC microsite](#) at the time the revision is published.

The *Commentary* is not part of the text of the monograph or general test or assay. Rather, it explains the basis of the FIEC's response to public comments. If there is a difference between the contents of the *Commentary* section and the monograph or general test or assay, the text of the monograph prevails. In case of a dispute or question of interpretation, the language of the monograph or general test or assay, alone and independent of the *Commentary*, prevails.
